

Please go to Google and search for **“hair salon in salem or”** and then login using the link at the top of the page.

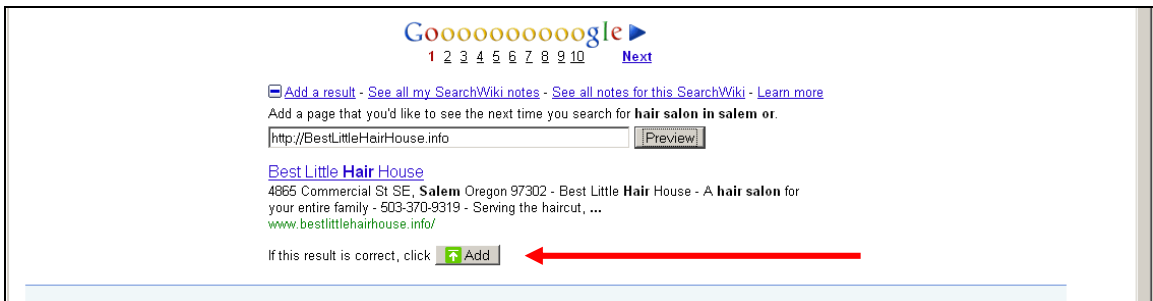

After you are logged in, please look at the very bottom of the screen and click the “Add a result” link. A box will appear where you can type in our hair salon’s web address.

Please type in <http://BestLittleHairHouse.info> then click the “Preview” button

Finally, click the “Add” button.

This will move our web site to the top of the list. If we get enough people doing this, then our salon will move to the top of the search list for people that are not logged in to Google. We really appreciate your help!
